MESSAGE FROM CEO

“

Successful business be with multi resources, capabilities and commitments to provide exceptional client's services, so my core values: Excellence in Everything, Leadership, Integrity and Transparency, Focus on the Client and Employee Centered.

For future, we should be focused to accelerate the execution of our growth strategy while continuing to build on the strength of our company business and bringing positive change and development to the communities in which we work and live.

”

Mr. Mazin Al-Haideri

ABOUT US

Since many years, Nahj Al-Rawan (NAR) Group for oil field , power plants, general contracting, transportation and general services has been setting the industry standard for performance and technical innovation in logistics and transportation services. NAR is part of a global network of unparalleled Geo-technical resources and expertise, specializing in logistics and warehouse management, Oilfields, Transportation, General constructions , its supplements, manpower and catering. We have built our reputation by

performing the highest quality work and providing the most innovative solutions on the widest range of demanding and high profile projects. With district offices around the world NAR Group has the capabilities and local expertise to address each region's unique constructions needs since 2012. NAR developing, introducing new techniques & completing many challenging, high profile projects.

Our Vision

Our aim is to act as an indispensable partner to our clients by helping them build and maximize sustainable competitive advantages. In addition to our expertly crafted and reliably delivered logistics solutions, our clients can rest assured that every interaction will be driven by integrity and respect, the fundamental principles of our business.

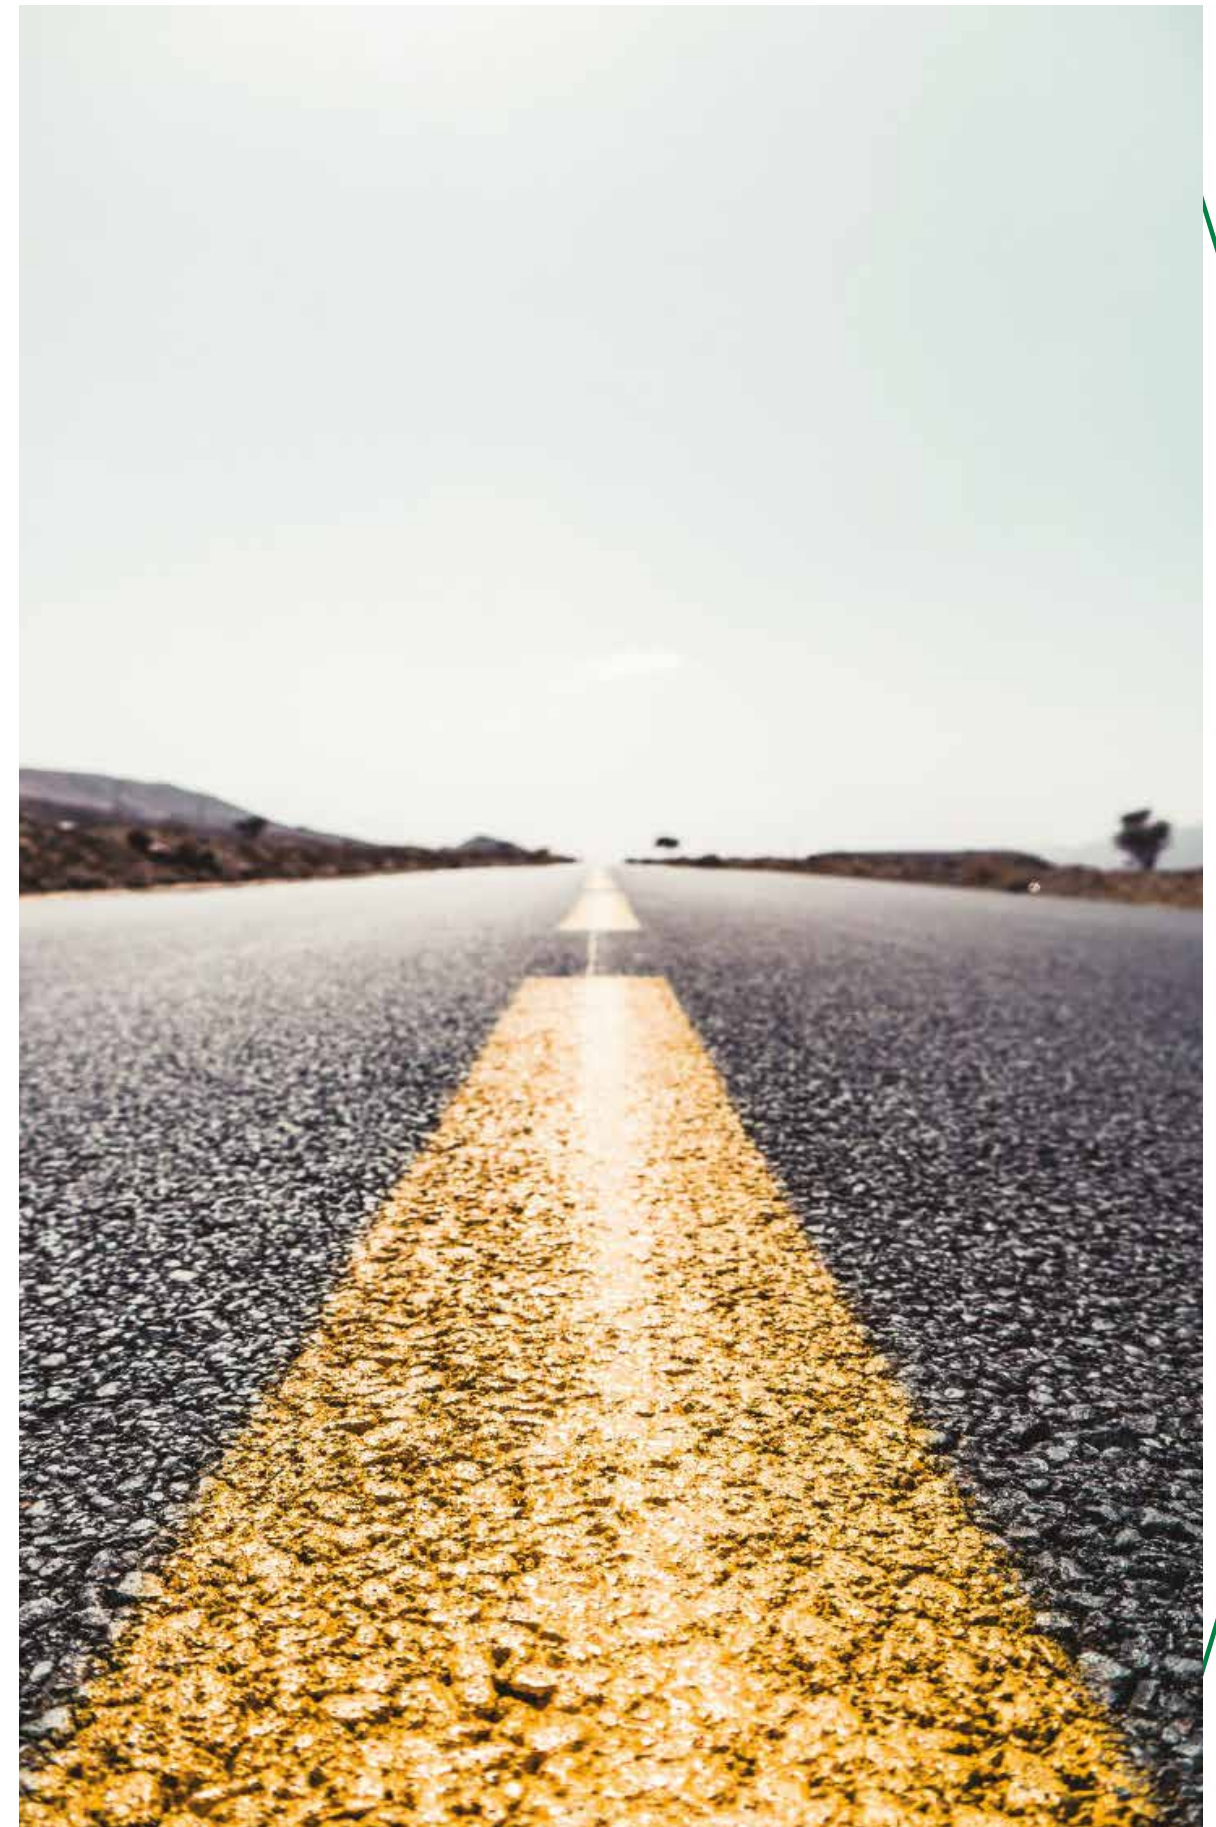

Our Mission

Our mission is to deliver a positive, reliable experience to each and every one of our clients while offering exceptional value in the marketplace and setting the standard for professionalism in the logistic solutions we provide. In addition to operating our business profitably, we strive to operate it responsibly both for our clients and our employees, for whom our goal is to provide a safe and secure work environment.

Our Values

- Ensure a healthy and safe work environment
- Act honestly, ethically, and legally
- Accept personal responsibility
- Show respect for the individual
- Exceed expectations
- Be more productive and efficient
- Be fiscally responsible

QUALITY MANAGEMENT

Our Quality Policy specifies the degree of excellence as “all activities of the organization will be carried out in a systematic manner in accordance with defined and documented Policies and Procedures, will meet applicable legislative requirements, will be visible and auditable, and will ensure that the needs of Learners, Staff and Stakeholders are met.

We realize that Quality is the responsibility of all personnel, and therefore will promote a Quality Culture within the organization by means of sharing information, including personnel in decision making and delegating specific Quality Management functions, e.g. Quality System maintenance, to suitably skilled and competent persons. Where deficiencies are found, related to the operation of the TNV, corrective and preventative action will be taken to ensure continual improvement of TP policies and procedures. The Quality system has the full

commitment of Management.

Our TNV identifies and plans for the resources needed to ensure that our quality objectives are met. This includes the identification and planning of TNV processes, the resources needed to ensure its successful implementation, and objectives for continuous improvement. Any changes to the system are conducted in a controlled manner so that the integrity of the QMS is continually maintained.

HSE MANAGEMENT QHSE

The Safety Policy of NAR is designed to comply with the standards of the Occupational Safety and Health Administration, and to endeavor to maintain a safe and injury/illness free workplace. A copy of the OSHA Safety and Health standards 1926 and 1910 are available for all employees use and reference. These standards shall be available in the office at all times and will be sent to the jobsite on request.

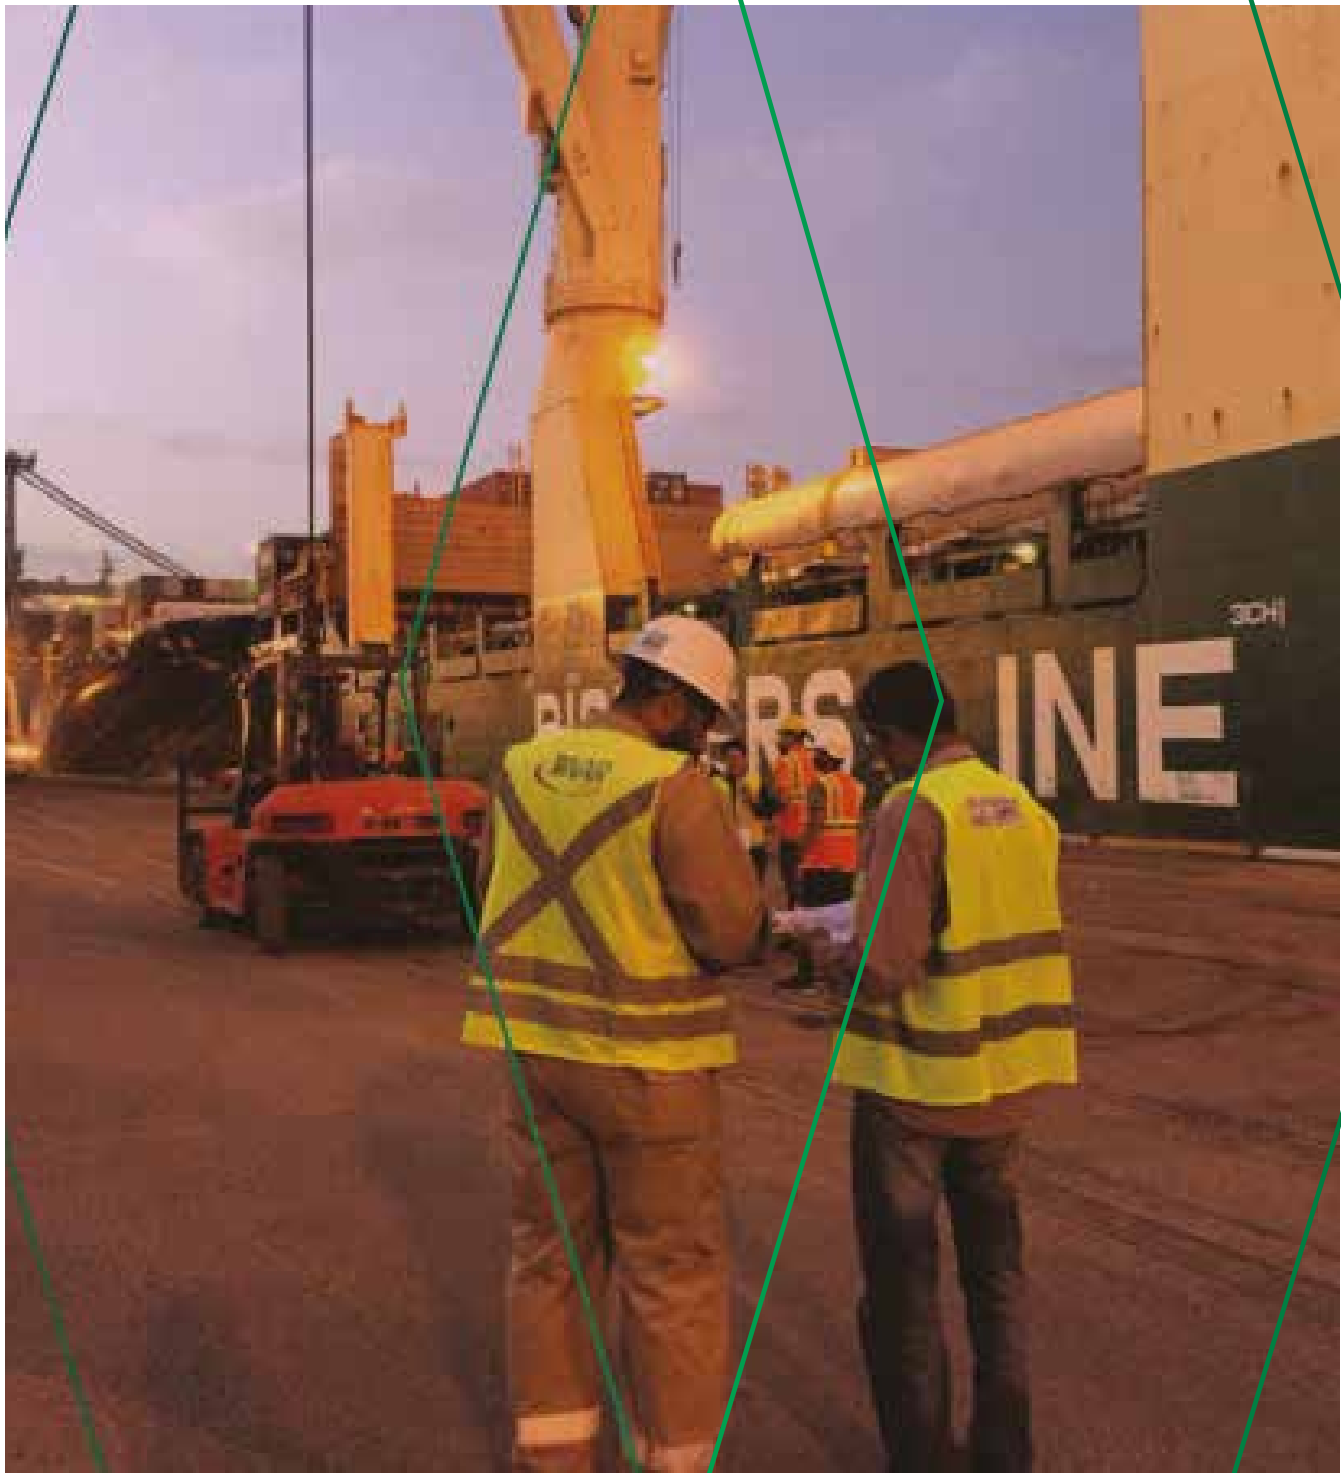

Compliance with the following Safety Policy and all items contained therein is mandatory for all employees of the company. The authorization and responsibility for enforcement has been given primarily to the responsible person. The Other responsible person(s) share in this responsibility as well.

It is company policy that accident prevention

be a prime concern of all employees. This includes the safety and well being of our employees, subcontractors, and customers, as well as the prevention of wasteful, inefficient operations, and damage to property and equipment.

Our company is a professional licensed customs broker to clear the shipments with extensive experience .

We will ensure the efficient and legal import handling of all your cargo.

We understand your needs as well as the legislative and regulatory requirements involved in importing the goods to any country.

At our company we work for you and help you to comply with the requirements of customs and government authorities.

We pre-clear all import consignments to help you avoid additional charges i.e. port storage and container detention line charges to make each transaction as hassle-

free as possible.

Whether you are new importer or experienced, we will provide professional service and advice to help you get your cargo through customs and legal authorities , and to reach its ultimate destination.

CARGO SERVICES

NAR has a well-organized transport system Consisting of various specialized vehicles, a nationwide network, and computerized tracking system, which empowers us to give comprehensive transportation to meet every need.

Mass transportation or small quantity delivery, no problem.

We provide the best domestic transportation solutions possible through own trucks as well as strategic alliances with other contract truck carriers over the country.

We also render services like loading, unloading, escorting and transit with insurance etc, trucks, tankers, trailers and containers (closed body) are utilized to transport all kind of goods to the respective destinations. Experienced and reliable drivers and staff ensure safe & smooth transit of our customer's goods.

Our Cargo Transportation Services include

- Domestic cargo movement (Road)
- Cargo marking facility round the clock.
- Transportation of goods from port of discharge to final destinations.
- Door to Door delivery of cargo
- Movement of Export & Import Containers by own fleet ODC, Heavy Plant & machinery.

CARGO INSURANCE

We provides Cargo Insurance which covers loss and/or damage of cargo while it is in transit between the points of origin and final destination. Goods may be transported by sea, air, or land.

Cargo Insurance is essential for businesses engaging in international trade, especially those shipping large quantities of goods. A terms and benefits vary widely across the world and many Cargo Insurance Policies are custom tailored for shipments, but a few general principles apply to the entire industry.

Domestic Project Cargo Transportation

NAR specialized in project management for project cargo, especially those with exceptional technical and operational challenges.

We develop complex transportation logistics, then safely implement and oversee every detail.

Our specialty is efficiently and safely delivering project cargo to extreme environments and in remote locations with primitive infrastructures

2 HEAVY MACHINERY SERVICES & INSTALLATION

*“A STRONG
FOUNDATION
FOR
TOMORROW”*

We are one of the IRAQ's largest privately-owned equipment installation specialists, offering machine installation, removal and relocation. All of our equipment installation projects are delivered to an extremely high standard, with thorough planning and attention to details.

We have successfully delivered a huge variety of heavy equipment installation projects over the past two decades, so we understand that some machine installation projects can cause significant disruption for businesses. That is why our experienced project managers will be on-hand to manage the entire equipment installation project for you, ensuring that resources are continually maximised, downtime is minimised and costs are managed.

Our machinery installation services are deployed for a wide range of projects, but typical examples of equipment installation requirements include our team being commissioned to work with the original equipment manufacturers for brand new machine installation jobs in state-of-the-art production facilities. Equally, we often deliver a turnkey machine installation package, involving machinery removal, relocation and heavy equipment installation in a new location.

3 OIL & GAS SERVICES

Diverse range of business expertise in general transportation, heavy lifting, general logistics services, trading and contracting services.

4 WAREHOUSING

We offer complete warehouse services to take care of all your needs. We receive, store, pack, track and ship your products. Our warehouse management system provides full control of the movement and storage of materials in the warehouse and in your supply chain. Operations should be lean and hassle-free. NAR offers a set of packaging services that enables customers to focus on their core products and processes to grow their business. Packing, kitting, warehousing, and containerization are examples of services that we custom build to meet the specific requirements of our customers. open area 32,500 m2 + warehouse 4000 m2.

5 MARINE SERVICES

Can provide customers with ocean service options whenever necessary. We provide direct consolidation services to and from every destination around the globe at a very competitive rate and at high frequency for both FCL and LCL services. Besides containerized cargo, we undertake Ro/Ro, Break Bulk and Project Cargo Movements.

For the convenience of our customers, we offer both full container load (FCL) and less-than-container load (LCL) shipping options. LCL shipping involves sharing container space with other consignees who are shipping cargo, while FCL shipping allows you to reserve a container for your cargo exclusively.

Our experts are not only responsible for container management, but they also take care of the necessary documentation, supervise goods handling and monitor the progress of shipments. In short, we take every precaution needed to

ensure that your freight arrives in a safe and sound condition.

We offer a comprehensive range of sea freight services backed by excellent infrastructure. Whatever the contract – whether bulky goods or complex project forwarding – our solutions do it all into your particular cost and time frame. We can offer guaranteed freight capacity on many routes.
